## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[Announcement Number 514]

**RIN 0905-ZA85**

### Sexually Transmitted Diseases/Human Immunodeficiency Virus Prevention Training Centers

#### Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 funds for cooperative agreements to continue the Sexually Transmitted Diseases/Human Immunodeficiency Virus (STD/HIV) Prevention Training Centers (PTCs) program. The objective of these awards is to support innovative professional training programs in integrated STD and HIV client management within a national network of STD/HIV PTCs to achieve a comprehensive prevention strategy, including clinical, health behavioral, and partner counseling interventions.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of STDs and HIV infection. (For ordering a copy of "Healthy People 2000," see the section "Where to Obtain Additional Information.")

#### Authority

This program is authorized under the Public Health Service Act section 318 (42 U.S.C. 247c), section 301 (42 U.S.C. 241), section 311 (42 U.S.C. 243), and section 317 (42 U.S.C. 247b), as amended. Regulations governing Grants for STD Research Demonstrations and Public and Professional Education are codified in Part 51b, Subparts A and F of Title 42, Code of Federal Regulations.

#### Smoke-Free Workplace

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

### Eligible Applicants

Eligible applicants are the official public health agencies of State and local governments or their bona fide agents. This includes the District of Columbia, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments. Applicants from local public health agencies must document the concurrence of the State or territorial health agency.

### Availability of Funds

Approximately \$5.6 million is available in FY 1995 to fund approximately ten awards for a 12-month budget period within a 5-year project period. All applicants must compete for Part I (Clinical Services Training). Part II (Health Behavior Training) and Part III (Partner Counseling Training) are elective. Up to \$4 million will be available to fund 10 awards in Part I. It is expected that the average award for Part I will be \$375,000, ranging from \$300,000 to \$450,000. For Part II, up to \$1 million will be available to fund up to 4 awards with an anticipated average award of \$250,000. For Part III, up to \$600,000 will be available to fund up to 4 awards with an anticipated average award of \$150,000. Funding estimates may vary and are subject to change.

Part I establishes the funding for this cooperative agreement; Parts II and III build upon Part I. Only applicants funded under Part I can receive awards under Part II or Part III. Separate funding will be established for awards made under Part I, Part II and Part III for each recipient. Awards are expected to be made on or about April 1, 1995.

Continuation awards within the project period will depend on satisfactory progress and the availability of funds. Progress will be determined by site visits by CDC representatives, progress reports, and the quality of future program plans.

### Use of Funds

Cooperative agreement funds may be used to support personnel, equipment, and supplies necessary for professional training, including distance learning activities. Funds may not be used to lease space; maintain central registries; provide diagnostic and treatment facilities and services; develop literature for the general public; provide disease intervention services or HIV counseling and testing; or to pay other expenses
